Practising

Note reading

A note appears on the treble staff. Press the matching key on the on-screen piano. Your score counts up as you go. Press **New note** to skip.

Follow the light

Play “Amazing Grace” by pressing each lit key in turn. When you can play it smoothly, try it on your own keyboard without looking at the lights.

Section 3

Lessons

Theory, Grade 1 has six modules. Each module is a lesson made of short steps, one idea at a time.

- 1 Press **Start lesson** on your current module.
- 2 Read one step. Press **Listen** under a music sheet to hear it, and point to each note as it plays.
- 3 Press **Next** when you are ready. Go back with **Previous** as many times as you like.
- 4 Answer the **Check yourself** questions. A wrong answer shows a hint; try again until you get it.
- 5 Read the summary at the end.

Tip. Go slowly. Say the memory sentences aloud (Every Good Boy Deserves Football, FACE) and play each **Try it** task on your keyboard.

Every lesson you have unlocked stays open. Press **Review lesson** on any module, even one you passed, and jump to any step from the step list.

Section 4

Module assessments

When you finish a lesson, its assessment opens.

- 1 Press **Take assessment**.
- 2 Answer every question, then press **Submit answers**.
- 3 Score 75% or more to pass. Passing unlocks the next module.
- 4 If you don't pass, read the corrections, press **Review the lesson**, then try again. There is no limit on tries.

Your results are shared with the Director and your parent. When you pass all six modules you are ready for the mock theory paper.

Section 5

Live classes and the Director
